

## Features and Benefits of Utilizing Heart Smart®

**Heart Smart®** is a nationally recognized, medical services provider.

- Because we provide 24/7 attended monitoring, you are reimbursed at the highest rate possible for transtelephonic cardiac event monitoring.

**Heart Smart®** supplies the recorders and supplies at **no cost**.

- Because there is absolutely no cost to the prescribing physician, you maximize your revenue.

**Complete training on billing and coding.**

- **Heart Smart®** billing staff will educate *your* billing staff so that you bill correctly every time.
- You will maximize your revenue because we keep you advised of updates.

**Heart Smart®** staff is a friendly bunch and love to please your patients.

- You can relax knowing that your patients will be treated like family. They will never be rushed and will always feel like they are our only patient of the day. Patients will be satisfied and will appreciate that you prescribed our services. Many of our patients have even written to us to thank us for the personalized, caring service.
- Your staff will enjoy dealing with our staff. We realize how privileged we are to monitor your patients and our concern shows. We keep paperwork to a minimum and consistently try to alleviate any unnecessary red tape.

**Heart Smart®** Research and Development team never rests.

- We utilize our profits to fund our R&D team, which allows us to be your "watchdog" for new equipment and services. This keeps you not only current, but also several steps ahead of other physicians not yet introduced to **Heart Smart**.

Home of the **Heart Smart®** clinically proven "Cardiac Monitoring Triage Protocol"™.

- Because we feel that every patient deserves the finest of care and every physician's office deserves the finest of equipment, services and staff, we developed the "Cardiac Monitoring Triage Protocol"™, which was designed by Board Certified Cardiologists.
